Seek GC man in \$36 million stock swindle

Whether Granite City's alleged multimillionaire Thomas Brimberry is a fraud or a victim of a complicated web of "high-dollar" intrigue is expected to be revealed this week as federal authorities attempt to untangle the maze of conflicting stories about the disappearance of approximately \$36 million or more in real or fake negotiable securities from Stix & Co. stock brokerage firm in St. Louis. The disappearance of the securities is likely to permanently close the 68-year-old Stix brokerage.

Brimberry, recently named senior vice-president of Stix (not related to Stix, Baer & Fuller department stores) was last heard from one week ago today when he was said to have called his office and reported that he had a dental appointment. He did not call or report to work Tuesday and an internal audit by Stix officials Wednesday indicated that at least \$36 million in securities was missing from a security box controlled by Brimberry.

Sources indicated that Brimberry, accompanied by two other Stix officials, followed normal procedure in returning the stock bag to a safe deposit box at Boatman's National Bank in St. Louis Friday.

When the safe deposit box was opened Wednesday, the bag inside was found to contain two Wall Street Journal newspapers and no stocks, according to St. Louis newspapers.

About 15 federal agents served a search warrant issued by the U.S. Magistrate David Noe on the downtown St. Louis office of Stix, at 319 North Fourth St. Wednesday and seized boxes of records relating to Brimberry and the missing securities. Trading by Stix was suspended, all securities were

frozen and the company was placed in temporary receivership until the questions can be answered.

Spokesmen for Stix contend that Brimberry is in contact with federal authorities and can be reached by telephone. They said they have not been told of his whereabouts, but need to talk to him, if there is any hope of salvaging Stix & Co. On the other hand, U.S. Attorney Thomas E. Dittmeier, said that he does not know where Brimberry is, but would not dispute that Brimberry can be reached.

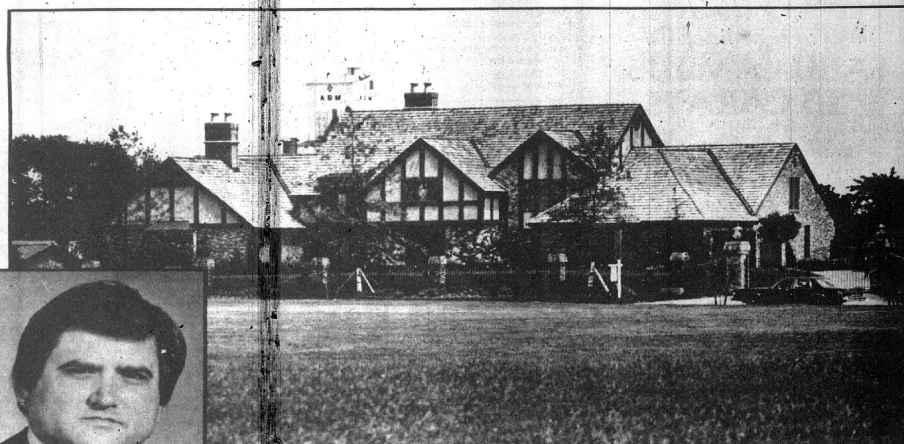

Stix Attorney Theodore D. Ponfil said in court in St. Louis Friday that he believes the U.S. government may plan to use Brimberry as a witness to implicate other people in the complex stock fraud, if such a fraud exists. It was stressed at Friday's hearing that officials do not know if the stocks are actually missing, or if the stocks were legitimate or fake.

Ponfil asked U.S. District Judge H. Kenneth Wangelin at the hearing to instruct prosecutors to make Brimberry available for questioning by Stix attorneys. He noted that the U.S. Securities and Exchange Commission has accused Stix of "fraud and deceit" in connection with the missing securities and said that Brimberry's depositions are "absolutely crucial" to Stix's ability to properly answer the complaints and, possibly, keep the company from going into receivership, which amounts to liquidation.

Judge Wangelin was told that Brimberry is not in custody of any agency and there are no charges, civil or criminal, pending against him.

Sources indicated that Stix, some of its officers and some outsiders have

THOMAS BRIMBERRY and his mansion

Brimberry... man of mystery

By GARY SCHNEIDER

A man of mystery, Thomas Brimberry rose from the operator of a janitor service and a tavern in Pontoon Beach in 1969 to a man alleged to have an estimated \$36 million in his possession and the largest house in Granite City in 1981. One might call it an all-American success story.

There is a hitch, however, federal authorities alleged that if Brimberry has approximately \$36 million in his possession, the money was stolen and Brimberry is likely to be the target of extensive questioning by federal authorities.

His ostensible house on Westmoreland Drive, rumored to have cost nearly \$1 million to build, will go on the county auction block in January or February, unless the taxes for 1980 are paid on the seven lots on which the house is built. No taxes are due on the house until next summer, since the Brimberys did not occupy it until after Jan. 1, 1981, the start of the tax year.

Thomas Brimberry's life has turned around again. Brimberry never said publicly where he got his "fortune." Even close friends had only rumors of a

relative who died and left him millions, and stories of investments in oil wells which struck it rich, on which to base their opinions.

Few, if any, knew how the 37-year-old, normally soft-spoken man had turned his life from one of tavern operator and janitorial service owner to senior vice-president of Stix & Co., one of St. Louis' largest stock brokerage firms.

Duane Skinner, a former Pontoon Beach trustee, who was described by most who knew him as Brimberry's chief assistant, brought the announcement of Brimberry's promotion to the Press-Record in October, 1980. The attached press release said that

resident for the past 18 years, Brimberry, his wife, Janice, and three children, Christine, Michael and Scott, plan to move soon into a house under construction on Westmoreland Drive. The house, appearing more like a mansion, was the talk of the town during its construction as the largest and most elaborate ever constructed in Granite City.

Skinner stressed at that time that Brimberry was a devoted and decorated Catholic and had given money and gifts to St. Margaret Mary Catholic Church in Granite City, where his children attended school. It was noted that in March, 1979, the Vatican

Study shows GC should raise treatment rates

By GEORGEANN MCGEE

for the Press-Record

The need for an increase in sewage treatment fees was pointed out by a study of quarterly sewage treatment fees paid by Granite City residents and all users of the city's sewage treatment plant (including those on the new township sanitary sewers) in comparison with other municipalities, according to a report briefly outlined to the Granite City Council.

Terrance McMillan, wastewater plant superintendent, said a survey of the city's treatment plant rates in comparison to other cities indicates there should be an increase in residential and industrial rates here with "reasonable consideration" given to the county, which places a lighter burden on the plant.

McMillan said he made the private survey for Mayor Paul Schuler. The mayor asked McMillan at the meeting to, "go ahead," and briefly report his findings to the council after Alderman Warren Decatur, of the Fourth Ward and chairman of the treatment plant committee, revealed Tuesday night that a rate study had been made.

McMillan said the study "laboriously" addressed county criticism of the rates and the problem of debt repayment to the city's general fund. The plant owes about \$33,000 to the city. Granite City's sewer rates of \$13 per quarter per household is on the "lower end of the range" when compared with neighboring municipalities, the plant superintendent said.

McMillan said Belleville's wastewater treatment plant was the closest in size and capacity to Granite City's wastewater plant facilities. If the rates are going to be raised, the new rates will probably be based on that municipality's.

Alderman Paul Fisk of the Third Ward said that Belleville wastewater treatment rates are based on the amount of water used per family. For a family of three, the average charge per quarter could be expected to be approximately \$20 to \$22.

"I wouldn't think we would have to be that high," McMillan responded.

A billing clerk for the Belleville

wastewater treatment plant said quarterly bills there were based on use per cubic foot, a flat rate and a debt service charge. Residential users are charged 45 cents per 100 cubic feet of water used, a flat rate of \$3.90 per quarter and, depending on water used, a debt charge varying from \$4.26 to \$13.50.

Schuler said the study was not intended to be private, but was merely a study to see how Granite wastewater

Former GC man's novel wins praise

By BILL WINTER

"Write about what you are familiar with" is basic advice given to most would-be authors. Vietnam war veteran Robert Butler, 36, a former Granite Cityan, has done this with his first novel, "The Alleys of Eden."

He followed the advice well, sketching taut scenes and believable dialogue revealing the great depth of his knowledge about that faraway land and its unique people. He is being praised for producing a work of great significance—the kind of "un-lay-downable" book that may make him nationally known and sought after.

Aware that every major occurrence in history changes the world and spawns literature that otherwise would not have existed, his associates believe that his first book will become one of the volumes most remembered whenever the topic is Americans' participation in the Vietnam war.

Butler plans to attend an autograph party here Saturday, Nov. 14, from 12 noon to 1 p.m. at the Browse a Bit book store, 3671 Namecki Road, Granite City, and also a reception at 1 p.m. that day at the Namecki branch of the Granite City Public Library, 6 Namecki Village Shopping Center.

Another bit of advice for writers is that the odds are stacked heavily against the likelihood of a newcomer quickly crashing the ranks of big-selling novelists. But Butler always has been a high achiever who was able to beat whatever odds faced him.

At Granite City Community High School, where he graduated in 1963, he was co-valedictorian with a perfect grade average.

Not just a studious teenager with "bookish" tendencies, he was popular with his classmates and was elected by them as the student body president.

At Northwestern University, Evanston, noted for its tough academic standards, Butler not only graduated with honors but was number one in his class.

After he obtained a master's degree at the University of Iowa, where the need developed for a publication dealing with the fast-changing energy field, he not only was asked to help

establish Energy User News but was named its chief. In that capacity, he has appeared as an energy expert on such programs as the CBS television network's "60 Minutes."

Horizon Press, publisher of his manuscript, believes it is possible that "The Alleys of Eden" could soar in the direction of No. 1 on national book lists. While the 256-page volume is fiction,

it has a ring of obvious authenticity in its references to locales in the United States and its discussions of the war—no, it wasn't a "conflict" or a "police action," despite what politicians may label it.

Northwestern University, the City of Chicago and the Chokoma Indian mounds here are among the sites mentioned. It notes that "his great grandfather helped build the Eads Bridge" more than a century ago.

How good is his book? One of the earliest reviews was written by Publisher's Weekly, the trade publication for the book publishing industry.

In PW Forecasts, part of the Oct. 30 Publisher's Weekly, Editor Barbara A. Bannon says, "This is an impressive first novel about an American Army deserter in Saigon and the Vietnamese prostitute he falls in love with."

"Together, for five years, they live in quite blissful, though threatened, secrecy."

"Clifford Wilkes is an intelligence agent who deserts after being involved in the killing. He has no wish to return to the United States."

"He loves Vietnam—its countryside, people and customs. But as Saigon falls, it becomes clear that the Viet Cong will never let either Wilkes or Lanh, the former bargin he loves, survive."

"And so they become two of the last people to be airlifted out of Saigon."

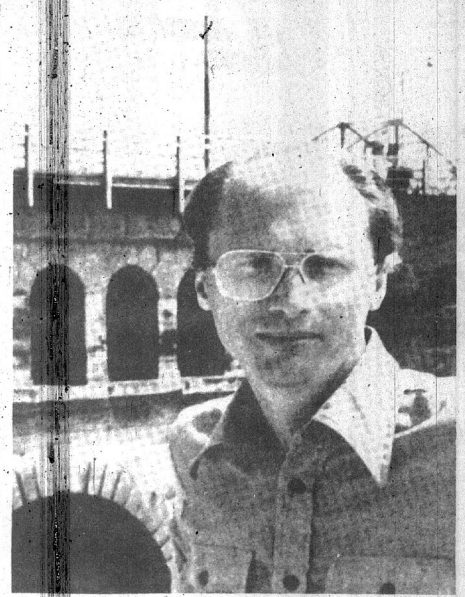

"In the States, Wilkes is a fugitive, and Lanh, who speaks no English, grows frightened, overwhelmed. Their relationship cannot withstand the clash of cultures."

"The novel is masterfully written, suspenseful and totally absorbing," the review concludes.

A \$12.95 price has been set for the book by Horizon Press, whose offices are at 156 Fifth Ave., New York City.

A Horizon spokesman comments, "The 'Eden' in this book is a room. The man and woman in the room have lived

Venice council to hear cable TV presentation

The Venice City Council has scheduled its third presentation from representatives of cable TV firms interested in extending cable service to Venice residents.

The presentation is scheduled for Tuesday, Nov. 17, during the next city council meeting. The company to make the presentation is Dowden Communication Inc. of Park Forest, Ill.

During the past few months, Venice council members have heard two other cable TV proposals, one from the city of Madison officials and the other from another private company.

In other business, the council received a copy of a proposal from the Illinois Central Railroad for the vacating of part of Main Street and alleys. Copies were given to all the aldermen at the request of Mayor Echols. The action followed a verbal presentation by railroad representatives.

The ICG wants to enlarge and improve its present piggyback yard (rail car to flatbed truck transfer facility) in southern Venice. The Mayor asked the two First Ward aldermen, Phil Daniels and John T. Fleig, to take the proposal and talk to the residents of the neighborhoods near the present piggyback yard.

The ICG is requesting that the lower south portion of Main Street, ending at the north side of the Terminal Railroad Association bridge, be vacated, along with alleys in the same area. The ICG owns the properties on both sides of that portion of Main Street and alleys and, they said, the street and alleys are used exclusively by the railroad company.

They claimed that extra room is needed to enlarge the parking area and eliminate the congestion.

Alderman John Ervin said, "I am still concerned whether this expansion will provide any jobs for Venice people."

Mayor Tyrone Echols read a letter from the Promo Network Systems of Chicago plan to make a full length movie entitled, "First Black Man in the White House."

The company said it would be traveling about 400,000 miles in the filming and include several cities with black mayors.

The council approved the annual renewal contract with the Illinois Department of Transportation for \$54,000 of motor fuel tax funds to be used to repair specified streets.

A list of used city equipment is to be prepared and advertised for sale in the near future, the council agreed.

The Rev. John Henry Williams informed the council about a street light which is burned out in the 600 block of Washington St. He contended that it will take about three to four working days to get the light replaced.

in it for almost five years, in love, and in a secrecy forced upon them by a dangerous past.

"Clifford Wilkes is a deserter, in fact the last American Army deserter left in Saigon. Lamb is an extraordinary woman whose love is enabling her slowly to heal from the bitter life to which she had been degraded by foreign troops.

"The scars of the past borne by both, the sensitivity of their understanding, their need for each other in an unremitting atmosphere of crisis, have sealed them in a passion of love now under daily threat.

"The life they make together is so truly described that the reader lives with them daily in its strangeness and intimacy, and in intensifying anxiety as the last moment for escape to America approaches.

"Their desperate race through the alleys of the city...with the engines of the 'choppers,' their final hope, hammering away in the distance...their arrival at the gates in front of freedom, and finally the rise of flight into the sky—this suspenseful sequence of action page after page comprises one of the most powerful passages of writing in any novel of war in our time.

"That alone would be enough to establish the credentials of this writer for the future. But the source, The Alleys of Eden, taking place entirely in America, is even more impressive in the subtlety of its development.

"The newness of their open life is felt almost as a character, a raw element in contrast with the closeness, the lush air in their Eden of a room in Saigon. "The force of love is pitted against the clash of two cultures. Mr. Butler's rendering of that dramatic theme is mastery.

"This is the welcome debut of a gifted writer," the Horizon spokesman concludes.

Butler served in Vietnam while in the U. S. Army. He worked first in military intelligence and then as an interpreter for the American advisor to the mayor of Saigon.

Married, with a seven-year-old son,

he lives in New York and, in his spare time, is working on a new novel. Reached on the East Coast by telephone, he recalled various experiences while growing up here and pointed out that the book is dedicated to his parents, Mr. and Mrs. Robert O. Butler Sr. They reside at 2301 Lynch Ave., Granite City.

His father heads the theater department at St. Louis University. Before retiring, his mother was employed as secretary at the United Steelworkers of America office in Granite City.

His biography as an author relates that he was "born and reared on the Illinois side of the Mississippi River across from St. Louis. In his home town of Granite City, he worked at various times as a steel mill laborer, taxi driver, and high school teacher."

In addition to his parents, among those who inspired and encouraged him were three of his high school teachers, Helen Kuestler, head of the English department at St. Michael's, now head of the GCHS North drama and speech department; and Mary Blackburn, longtime director of the speech department at what is now GCHS South.

During his high school years, he acted in a number of student play productions. While a student at Northwestern—where he attained a grade point average of 3.96 out of a possible 4—Butler was a theater major, studying oral interpretation and speech in literature.

He began writing plays there and has never stopped. One of his dramatic works was produced at Northwestern.

His bachelor degree was in theater, and in that connection he studied writing with the highly-regarded Stephen Spender.

Butler obtained his master's degree in play writing at the University of Iowa.

He then enlisted in the Army in 1969, being assigned to military intelligence as a counterintelligence agent.

Having been trained as a Vietnamese

linguist, he spent 1971 in Vietnam as the administrative assistant to the American foreign service officer who was the advisor to the mayor of Saigon.

An associate relates that "he currently is the editor-in-chief of a weekly business newspaper, Energy User News, that he created" for Fairchild Publications in 1976.

"He has become a prominent national speaker on energy, recently appearing on the national television show, 'Energy: the Light at the End of the Tunnel.'

"He has had several short stories published, including two in Redbook magazine and one in Cosmopolitan magazine, and has had plays produced in several cities.

"He lives with his wife, Marilyn, and his son, Joshua, in Sea Cliff, N. Y., and is keeping mighty busy these days with his second novel."

What is his next book about? That has not yet been told to the public. Only a few authors, such as James Michener, talk freely about their choice of future subjects years in advance of the completion.

But the many persons who have derived keen enjoyment from the first book by Robert Olen Butler say they are hopeful that his research and writing will go well and rapidly.

They cannot wait for the next publication date, for how often does one find an "un-lay-downable" book?

Study school crossing routes near overpass

By GEORGEANN McGEE
for the Press-Record

Parents and children lined benches outside the Granite City Council chambers last week, seeking aldermanic approval for placement of a crossing guard at the three-way intersection of 19th and Benton streets and Niedringhaus Avenue.

"We didn't want to just bombard them with kids in the neighborhood," said Debra Robinson, a parent of three Emerson School children, "but a lot of parents and kids will show up next time if this doesn't work out."

Mrs. Robinson told aldermen the overpass has created "very dangerous crossing" for Emerson children. She handed Alderman Jake Varadian of the 8th Ward, member of the council's street and alley committee, a 200-signature petition that included the names of several Emerson teachers.

"Children of this neighborhood have taken for granted that the overpass is

a playground. This causes a very dangerous situation for our school children," she said.

The operator of Deb's Dream, 1829 Nineteenth St., Mrs. Robinson said that from her shop she can hear cars screeching when they stop suddenly at the foot of the overpass. Alert to such sounds, she investigated last Tuesday and found a driver yelling at five children he had almost hit with his car.

A school patrol currently supervises crossings at the overpass intersection, but "Elementary school children are not capable of telling children to cross busy streets," Mrs. Robinson contended.

She said that when she contacted School Board President Thomas Mofsky, he referred her to the city, which pays the salaries of the school crossing guards. Varadian made a motion to have the city install a three-way stop at 20th and Benton streets and move Emerson's crossing guard from his

station there to 19th and Cleveland. He withdrew the motion after parents objected to losing a guard on Benton.

Chief of Police Ronald Veizer said there is a crossing light at 20th and Benton. He said he thought traffic is not as heavy at 20th and Benton, since the opening of the overpass, but he would not recommend removal of the crossing guard there without checking the situation.

Varadian requested that City Engineer Monroe Brewer conduct a traffic study at 20th and Benton streets to determine whether or not there is still a need for a guard at the spot.

"We don't have the staff," Brewer said. Varadian then made a second motion to refer the problem to the police department and the city engineering division.

Seniors celebrate holiday with flair

The fourth annual Granite City Township Halloween Party and Dance was a howling success Oct. 30 when 325 senior citizens used the eve of All Saints to be witches, hobos or "whatvers."

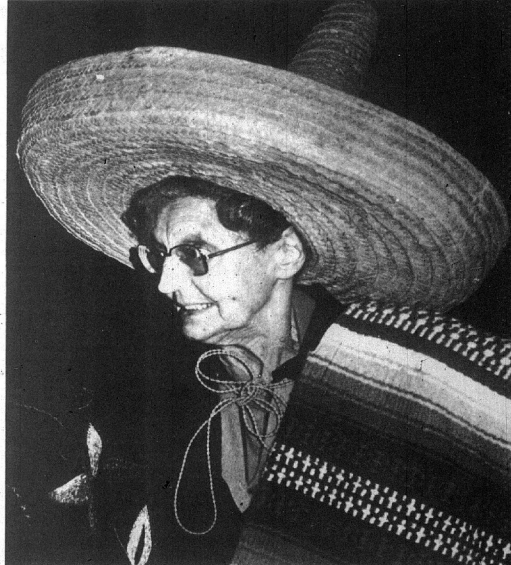

The yearly event, sponsored by Township Supervisor Nelson Hagnauer, conjured the volunteer spirit of the entire township staff as the seniors joined hands to dance in a large circle, dispelling any poor spirits.

"This has built up so much since it started," said one of the township workers. Howard Bolton and his

Stagecoach Band, whose services were donated by Musicians' Union Local 717, entertained for three hours. Throughout the evening, dance couple Helen Mayzer and Vic Johnson displayed a talent for constant motion and original steps.

Apple cider and donuts were served to the seniors. In the costume judging event, Florence Paul, 82, known for her handmade bonnets, won the title for the prettiest. Other winners were Gladys Freeman and Jean Uherick, most original; Irene Kadane, most comical; and Paul Danco,

ugliest. All of the winners were given turkeys, which were donated by the VFW.

The Granite City Association of Educational Secretaries, represented by Betty Williams, Arlene Haldepan, Arlene Smith, Pat Bannoff and Helen Favier, served as judges in the costume contest.

Brimberry

(Continued from Page 1)

in Rome, Italy, honored Brimberry with diplomatic credentials in the foreign service of the government with the rank of Knight of Merit, Sovereign Order of St. John of Jerusalem, Knight of Malta.

Skinner has not been seen since Brimberry disappeared and neighbors contacted Friday said they believed he had been "out of town" for the last few days. Attempts to reach him or anyone who had seen him recently were unsuccessful.

Brimberry was constantly protected by armed security guards, first from licensed agencies and later by guards hired by a firm he and Skinner established, M&E Security. One guard who remained at the Brimberry mansion Thursday told reporters he had heard that the security company's fleet of cars had been sold Monday and that the M&E supervisor had left town.

"As far as I can see, everything is gone from this house and his other house," it was not clear whether the other house was the modest ranch home on Snowbird Lane in which the Brimberry's lived, surrounded by armed guards, even before moving into the Westmoreland Drive home, or whether he was referring to the Scottsdale, Ariz., home which Brimberry told the Press-Record earlier this summer that he could not be reached locally on weekends, because he spent nearly every weekend in Scottsdale.

Brimberry avoided publicity, except for the public announcement of his promotion at Stix & Co. (not affiliated with Stix, Baer & Fuller department stores). However, he received some unwanted publicity in March of this year when Alderman Warren Decatur, a candidate for mayor of Granite City, alleged that Brimberry and Skinner had been involved in offers of money for Decatur to withdraw from the mayor's race.

He contended at that time that he had received a telephone call from Avery Schermer, who said that Brimberry and Skinner had personally visited Schermer Brothers Grocery in Madison, which the Schermers own, and had told Avery's son, David, to contact his father and ask his father to relay a message to Decatur.

The message contained an offer of \$10,000 for Decatur if he would withdraw from the mayor's race, and a warning that the campaign would get extremely "dirty" if he did not withdraw and that Decatur's wife would not

be able to accept the allegations which would be made about her husband.

The Schermers say Decatur's allegations that Avery did give that warning and offer to him by telephone or true. Decatur contacted some authorities and then decided to make the offer public in the Press-Record. Brimberry and Skinner denied all of the allegations and Brimberry said he had proof he was out of town when the alleged visit to Schermer's Market was made.

During the campaign, Brimberry told the Press-Record that he was supporting the campaigns of Tom Nesbit for city treasurer and Daniel Partney for mayor. He said his primary interest was in the election of Nesbit, because he and Nesbit were members of the same church, St. Margaret-Mary Catholic Church.

Brimberry said he had made some contributions to the campaigns of Partney and Nesbit. Partney agreed, but said the donations were small. Both the Brimberry-backed candidates lost the April election.

City officials believe that they had invited Brimberry's divorce when they refused to waive the necessary "red tape" for city council approval to allow Brimberry to put a cul-de-sac at the end of his driveway. Brimberry wanted it done right now and I told him it had to have council approval first. He didn't like that," City Engineer Monroe Brewer contended.

Other than the minor political skirmishes, Brimberry stayed out of the headlines, but was a source of constant gossip. Unconfirmed rumors included one that he planned to donate his giant house to the Catholic church with an agreement that he could lease it back for as long as he wanted. Bishop McNicholas was said to have thwarted that effort. The rumor was never verified.

Brimberry was generous to the Catholic church, particularly St. Margaret-Mary. Members said he was credited once with donating a new car to the church for a fund-raising raffle. He also was credited with purchasing the ornate pair of iron gates used to close off the drive in front of the church.

Tom Brimberry was a good Catholic and a good neighbor. Most of those living around the giant home welcomed the protection of armed guards on their block 24 hours a day. One neighbor said the Brimberry's were always friendly and kept their property neat. Automatic sprinkling systems kept the lawn neat and the palm trees around the outdoor swimming pool alive.

Several local residents said they had been Brimberry's guests on trips to Nassau, the Bahamas, Scottsdale, Ariz., Las Vegas and Hawaii. Land

developer Stanley Lucas said he and his wife were Brimberry's guests on a private jet to Nassau, all expenses paid, after Brimberry bought the seven-dot, on which his house was built from Lucas.

Lucas said the plane full of people and the people met in Nassau. "He had people falling at his feet down there. Was he a big spender? I hope to shoot," Lucas recalled. Brimberry always made his payments on time and usually in person, Lucas said, adding that Brimberry purchased an eighth lot in the same subdivision from him about two months ago and immediately paid for it.

Rosewell Bennett Jr., chief of police of Pontoon Beach, said he has known Brimberry since Brimberry moved to a Pontoon Beach apartment about 12 years ago. They lived in the same apartment building. "He used to be a quiet-type person. He was not a real boisterous guy, although I hear he may be now."

Bennett said the police never had any problems with Brimberry or with the Las Vegas Colonial Inn tavern he ran, across from the former police station. "We didn't have any of the usual tavern problems, fights and so forth. It was a quiet place," Bennett recalled. He said he had never been a guest of Brimberry's on any of his numerous trips.

In 1971, there was a fire at the tavern and Brimberry made the news when he contended the fire was a retaliation for his attempt to have the village tavern closing hours enforced at another tavern. Bennett recalled he also had a fire in his apartment, which broke out during a storm about nine years ago.

Brimberry's rise in the financial world in St. Louis began in 1972, when he joined the large Stix & Co. as a clerk. With the help of attorney James Massa, a Collinsville attorney who had substantial stock in Stix, Brimberry began a climb in the company in 1978 described at "meteoric." In three years, he became second in command of the company, which has three St. Louis offices and six offices outside of St. Louis. Annual commissions to the firm from its 5,000 to 6,000 accounts which broke out during a storm about nine years ago.

Eventually, Brimberry and Massa held controlling shares of the firm. Brimberry was riding the crest of a powerful wave. He was in an atmosphere where every decision involved millions of dollars and large profits. Life was good to the Brimberlys until the empire crumbled last week.

Two injured in Route 3 mishap

The drivers of two vehicles sustained injuries in a side-by-side collision occurring at 423-425 on Friday on Route 3, about one-half mile south of the Niedringhaus Avenue intersection, when a third vehicle, passing on the left, blocked the shoulder forced the driver of one car to move to the left.

Operating the northbound lane were Bonnie S. Burckhardt, 2012 Richmond Ave., and Randall Scott of East St. Louis, who said the third vehicle passed the Burckhardt car on the shoulder, crossed in front of the driver and forced her to move to the left into Scott's auto. A concrete median barrier divides the highway where the mishap took place.

Burckhardt, 22, was admitted to St. Elizabeth Medical Center with possible head injuries. Miss Burckhardt, 20, was treated in the hospital emergency room for pain in her jaw and swelling of her right ankle. She was released.

Armed robber takes \$490 radio-recorder

A portable radio-tape player, worth about \$490, was taken by an armed robber from the CMC Stereo Center, 3142 Nameoki Road, at 7:55 p.m. Thursday.

The red-haired robber, described as being 6 feet, 1 inch tall and weighing about 170 pounds, asked a clerk to show him several expensive portable radio and tape player units, discussed methods of payment and chose a "top of the line" model.

As the man and store employee were walking to

the cash register, the clerk asked how he wanted to pay for the equipment and the robber produced a small blue steel pistol, about four inches long, and said, "I'm paying with this."

He told the employee not to leave the store for five minutes and then ran out of the door and around the building toward the rear of Church's Fried Chicken, also at 3142 Nameoki Road. The clerk yelled for the store manager and then ran after the robber, who was seen to enter the passenger side of a dark blue auto. The vehicle immediately sped away, spilling its tires and "fishtailing" onto Jill Avenue and then went east on Jill.

The man was about 21 years old and wore his straight red hair cut just over the ears. He was wearing a red jacket with white stripes on the sleeves and blue jeans.

Former GC Journal editor sues paper

Allen Curless-Gibson, former editor of the Granite City Journal, plans to seek actual and punitive damages against the Journal for breach of contract, signed June 8. Her attorney, Leon Scroggins, said he would file the complaint in Edwardsville Circuit Court this morning.

Mrs. Curless-Gibson, who was dismissed Oct. 21 from

her position as editor after only 4½ months, is claiming the Granite City Journal failed to comply "on a continuing basis," as per the contract. The suit claims the Journal sought to terminate that agreement prior to its expiration.

The complaint claims the failure of the Journal to comply with the agreement has injured the former editor in the practice of her

profession as a journalist and has resulted in damages. She is seeking the money due her, to date, on the contract and damages.

Mrs. Curless-Gibson was dismissed two days after her daughter, Jane Curless, and two other employees were dismissed. Mrs. Curless-Gibson had been the editor since a June 8 shakeup, when former editor George

Williams and two other employees were fired. In between the two shakeups, the Journal's President and Publisher Rod Sanders was dismissed.

Mrs. Curless-Gibson's firing resulted in Granite City police being called to the building to help resolve a dispute over ownership of some documents. Those papers were placed into evidence by the police until the proper ownership could be determined.

Contacted this morning, Daniel Donnelly, current president and publisher of the Journal, said he was unaware of the complaint and had no comment. He said he was not sure when the ownership of contested papers would be determined.

Get out the paper bags—Cards awful

By PETE HAYES
Sports Editor

ST. LOUIS — Get out the paper bags to put over your heads, St. Louis fans. The New Orleans fans did it last season when their Saints were in the throes of a terrible campaign. The Baltimore fans have already done it this season. Their Colts have won only once.

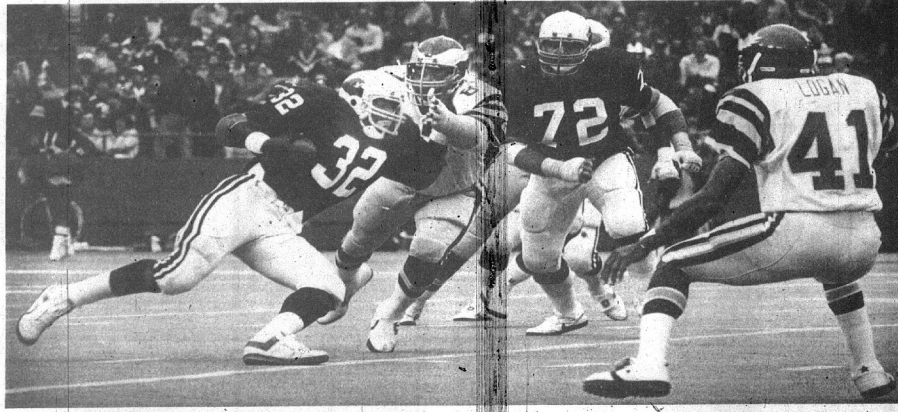

But those teams have nothing on the Cardinals who were soundly trounced here Sunday by the Philadelphia Eagles 52-10 at Busch Memorial Stadium.

Sunday's loss was somewhat of a rarity at that, however. It came at the hands of a division leader. The Cardinals have made a habit this season of playing awful against the weaker teams on their schedule but magnificently against the better teams. They beat Dallas. They beat Minnesota. But the tables were turned in the second half Sunday.

The Cardinals were awful. "The performance in the second half was the most pitiful I've ever seen in my entire life by a bunch of professionals," said St. Louis head coach Jim Hanifan. "This is the most humiliated I've ever been in my entire life. It's the most embarrassing I've ever been in my entire life."

The first half was something else, however. The Cardinals played the Eagles tooth-and-nail and trailed only 17-10 going into the locker room at the halftime intermission. But once the second half got started, they were never in the game.

You name it, it happened to the Cardinals. Fumbles. Interceptions. Failing the perform on key plays.

O.J. ANDERSON (32) of St. Louis tries to find some daylight Sunday afternoon at Busch Stadium during his team's 52-10 loss at the hands of the Philadelphia Eagles. Number 72 for the Cardinals is Dan Dierdorf.

Take one particular play in the third quarter, for instance. On a third down and two yards to go situation, Cardinals quarterback Jim Hart faked back to pass. But the receivers were covered. He stutter-stepped around in the backfield, hoping for a receiver to break

free. But it didn't happen. The protection for Hart began to break down. But there was an opening in the line a Mac Truck could have driven through. Hart could have limped for the first down. But he didn't. Instead he grounded the ball. Where he threw it,

there was nobody with a red jersey on. Big game play does not a loss make. No siree. Sunday's loss was a total team effort. The defense couldn't stop the Eagles' ground game OR the passing attack. Cardinal defensive back Carl Allen was the most victimized player of

the game. He was probably shell-shocked when he left the field.

"I don't think the players quit," said Hanifan. "It was just frustration setting in. They were waiting for what would happen next. When you commit a turnover, you've got to be able to

bounce back and forget about it. That didn't happen today."

But Allen wasn't the only defender who allowed a Philadelphia touchdown. Oh no, there were plenty of those to go around for everybody.

Believe it or not, the Cardinals actually had the LEAD for a time. After Philadelphia scored on its first possession on a 19-yard pass from quarterback Ron Jaworski to Willie Montgomery, the Cardinals came back — with the aid of a costly penalty against the Eagles — to tie the score. Hart hit a wide-open Mel Gray for a 38-yard touchdown strike. Later, in the second quarter, Cardinals placekicker Neil O'Donoghue put St. Louis out in front with a field goal. But the Eagles came back on a Jaworski-to-Carter TD pass and a field goal by Tony Franklin to take the 17-10 halftime lead.

In the second half, the Busch Stadium scoreboard operator must have thought it was a high-scoring baseball game rather than a football game. Harold Carmichael caught TD passes of 14 and 38 yards from Jaworski. Billy Campfield scored on a two-yard run.

In the fourth quarter, with the Eagles' regulars long gone from the game, Philadelphia still scored almost at will. And it wasn't as if the Eagles were trying to embarrass the Cardinals — St. Louis was doing a good enough job of that by itself. A 20-yard pass from backup quarterback Joe Pisarcik to Wally Henry and a one-yard run by Booker Russell rounded out the scoring.

The loss dropped the Cardinals' record to 3-7. Next week, they will host the Buffalo Bills at noon.

SPORTS/MONDAY

North will face Griffin in opening round

SPRINGFIELD — The second season begins here Wednesday night for Gateway East Conference football champion Granite City North and Capitol Conference champion Springfield Griffin.

The Illinois High School Association (IHSA) announced the high school football playoff pairings late Saturday night and the Granite North Steelers (7-1) find themselves playing in Class 1A against the Griffin Cyclones (8-1). And it won't be an easy task — for either team.

The North-Griffin game will be played at Springfield's Memorial Stadium. Kickoff time is scheduled for 6:30 p.m. To get to the stadium, fans driving from Granite City should take

Interstate 55 north to the Clear Lake exit in Springfield. Then travel west on Clear Lake to 11th Street. Then go north on 11th Street to Grand. The stadium is located on the corner of 11th and Grand, near Lanphier Park's baseball field.

While North's Steelers are making their first appearance in the state playoffs since they were entered in the 1974 playoffs as a 4A independent, being involved in post-season play is nothing new to Springfield Griffin. The Cyclones are making their fifth straight appearance in the playoffs and their seventh in the last eight years.

"We take pride in the strong tradition we've established at Griffin," said Cyclone head coach Robin Cooper. "Our players know what it takes to win

Steelers dump South

—Page 9

and that's a very important thing in the playoffs."

"One thing we stress is not taking the opponent lightly," said Cooper. "We definitely won't take Granite lightly."

While Cooper has not had a chance to see North play in person, he has had them scouted and has viewed films of the Steelers' last three games.

"It's obvious that Granite City has a hard-hitting, physical ball club," he said. "Their very similar to us in that

respect."

Another similarity between the Steelers and the Cyclones is the strong defense — the two clubs have. Springfield Griffin allowed only two touchdowns in Capitoll Conference games this season and had five shutouts.

"The defense has been very consistent all season — except for our first game," said Cooper. "We've got five all-conference players on defense and

one who might be all-state material." The team leader on Griffin's defense is defensive end Doug Bartlett. The 6-2, 210 senior has recorded three safeties this season. "He's the leader," said Cooper. "The rest of the defense looks to him."

Griffin allowed just 41 points all season. But 21 of those points came in the Cyclones' season-opening loss at the hands of Springfield Senior, 27-21, in overtime. After that game, Griffin beat Springfield Lanphier 21-0, Decatur MacArthur 34-6, Normal 27-7, Decatur Eisenhower 48-0, Champaign Centennial 35-0, Springfield Southeast 22-0, Jacksonville 48-0 and Chatham Glenwood 14-7.

Obviously, the Springfield Griffin

defense isn't the only strong point of the team. "We got an pretty solid offensive attack," said Cooper. "We can put the points on the board."

Among the offensive standouts for the Cyclones is tailback Mark Mosley. The 5-11, 185 pound senior has gained over 1,400 yards on the ground this season. Griffin's quarterback is junior Paul Venturini. He has passed for over 900 yards this season and is accurate with 60 percent of his passes.

The Cyclones are a senior-oriented team, starting just two juniors on both offense and defense.

"Granite appears to be a very solid ball club," said Cooper. "We'll have to be at the top of our game to beat them. They want it just as much as we do."

Kahoks advance with sectional championship

By JEFF WILSON

For the Press-Record

COLLINSVILLE — Senior back Gerry Modglin figured heavily into the Collinsville sectional victory Saturday night as the Kahoka defeated the Belleville West Maroons 2-0 and thereby earned a trip north next weekend to participate in the state

soccer tournament.

Collinsville's sectional championship marks the first time in state soccer playoff history that a school from a city other than Granite City had advanced to the State Finals. Granite City South has represented Southern Illinois every year except 1974 when Granite City North made the trip north. South, which

was upset 1-0 in the sectional semifinals by Collinsville, was the five-time defending state champion.

It was Modglin who opened the door, when he missed a penalty kick midway into the second quarter and gave the Maroons life. Fittingly, however, it was also he who was given a second chance and closed the door with a penalty kick goal in the final quarter.

Collinsville coach Jim Stranz viewed the first kick as the key to the game. "Obviously it was the missed first penalty kick. It got them back into the game," he said.

"Bang did they play spectacularly. After that, they came out and blistered us off the ball," Stranz said.

The penalty kick was something Collinsville and Modglin had worked on in practice before the West game and Modglin was flawless in 20-30 attempts, according to Stranz.

"It's a mind thing. Once he broke the streak he did all right," Stranz said. "He's a clutch player, our all-star."

"People say you have to have a super defender to win state and we've got one," Stranz said.

Modglin thought his first attempt was a good play. "I thought it was a pretty good shot. He (West goalie Tom Ackerman) made a good save," Modglin said.

Ackerman dove to his right and made the save as Modglin took the shot 25 minutes into the game. That save was one of 16 Ackerman made Saturday evening.

Ackerman was the reason the 12-13 Maroons never quit. It was his clutch play that kept him team alive.

"They (Collinsville) came harder than I expected," Ackerman said. "In the third quarter we shut them down, and they opened up again and took advantage of it."

Of the penalty shots, Ackerman told (Continued on Page 9)

Notre Dame makes state soccer finals

SPRINGFIELD — The Quincy Notre Dame Raiders advanced to next weekend's State Soccer Tournament with a 3-2 victory over Springfield Southeast in the championship game of the Springfield Southeast Sectional Tournament Friday night.

The Raiders (20-4-1) will make their first State Finals appearance ever when they face Glenbrook North (17-1-1) in the tournament's last quarterfinal game Friday, Nov. 13 at 7:30 p.m.

Hinckley-Big Rock won the championship of the St. Charles Sectional with a 2-0 shutout victory over Wheaton Christian. Hinckley will be making its third straight State Finals appearance when it faces Collinsville Friday at 2 p.m. In Game Two of the tournament, Collinsville advanced with a 2-0 victory over Belleville West to win its own sectional tournament Saturday night (see related story).

In the State Finals' first quarterfinal contest Friday at noon, Prospect (19-1-0) will face Maine South (12-4-2). Prospect advanced with a victory over Wheaton North in the championship

game of the Wheaton-Warrenville Sectional and Maine South beat Evanston 4-2 to win the championship of the Niles West Sectional.

In the other quarterfinal game, Homewood-Flossmoor will face either Chicago Bowen or Chicago Roosevelt at 5:30 p.m. Homewood-Flossmoor defeated Brother Rice of Chicago 1-0 in the Hinsdale South Sectional. Bowen and Roosevelt will play Tuesday at 2 p.m. for the Chicago Public League championship.

Several teams will be making their first appearance at the State Finals. They are Collinsville, Homewood-Flossmoor, Quincy Notre Dame and Prospect. Maine South will make its second appearance, Hinckley-Big Rock its third and Glenbrook North its second straight, if Bowen should advance. It would be the Bollermakers' third appearance. It would be Roosevelt's first.

A new state champion was assured when five-time defending state champion Granite City South was beaten by Collinsville 1-0 in sectional semifinal play last week.

STEELER QUARTERBACK Carl Luehmann (black jersey) is stopped by Granite City South's Tim Phelps Friday night during Granite

North's 27-14 victory. Pursuing Luehmann are Don Hammond and Scott Abbott.

FREEBURG — Madison football coach Al Vonderhaar stood on the sidelines, his hands on his hips. His green striped tie and white shirt were untucked at the neck. He stared at the scoreboard, Freeburg 6, visitors 0.

He had just watched his defense play four quarters of excellent football and then falter on the first play of the overtime. It was a tough loss to take and a tough way to end the season.

"We stopped them except when we had to," Vonderhaar said. "The kids deserved to win this one."

"What's had about losing your last game is that you have 45 weeks to think about it whereas if you win, you have 45 weeks to enjoy it."

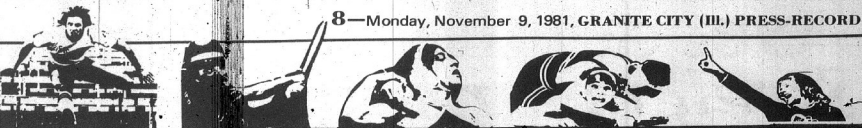

It was Freeburg's Ron Klann who wrecked the afternoon for Madison. On Madison's second play of the overtime, he stripped away a pass from Elzie McMillian in

the end zone. Klann then moved to offense and rambled into the end zone on the first play to give Freeburg the victory.

Vonderhaar admitted the Trojans beat themselves. Four times in the game they had moved the ball inside

MISL refs are now going at it full-time

PHILADELPHIA — In what marks an unprecedented program in the world of professional soccer, the Major Indoor Soccer League (MISL) will utilize the services of six senior referees who are employed full-time by the league.

Previously, referees for MISL matches were assigned on a game-by-game basis. The procedure that is used throughout the world. All MISL referees are sanctioned by the United States Soccer Federation (USSF).

In announcing the unique program, MISL Commissioner Earl Foreman cited the need to "upgrade the level of officiating in the MISL in regards to consistency, mechanics, and uniformity of interpretation of the laws of the game, while providing the league with a professional referee program that is comparable to the other major league sports in this country."

The six full-time referees, who recently went through a week of intensive training and physical testing in Buffalo, are Gino Dippolito, Jeff Mantel, Bill Maxwell, Anatol Popovic, Herb Silva and Don Wyszynski. (Brief biographies follow at the end of this release.)

With the full-time senior referees working 99 percent of the season's first month of games (starting Nov. 13) and 70 percent of the remaining contests, all other games and the assistant game referees duties (in the penalty box) will be handled by a staff of 42 referees. A staff of 78 supplementary officials (also USSF authorized) perform as goal judges and penalty box referees.

MISL Referee-In-Chief, Dr. Joe McNulty, used a personal eyewitness grading system and grades by USSF assessors and MISL-coaches to select the top game referees before offering full-time MISL contracts.

"I feel we have selected the best six indoor soccer referees in America," stated McNulty. "They will now be able to meet the challenge of the explosive game of indoor soccer with the extra fitness and experience required without the interference of another job. They will be able to totally dedicate themselves to the task at

hand."

Due to the newness of the sport, the MISL faced a problem of finding officials with indoor soccer experience. With the start of the MISL, the only practice an official was able to gain was in an actual MISL game. Now, the officials with the greatest indoor experience will be working with the greatest number of games.

"Previously, our top people were working only once every three weeks," explained McNulty. "Now, our best referees will be on the field three times a week — and there is no substitute for being the 'man in the middle.'"

Steelers tune up with win over South

By ROGER KRAMER
for the Press-Record

GRANITE CITY — Granite City South football coach Jerry McKeehan knows how difficult it can be for his players to come back to practice each Monday after a loss, especially with the number of losses the Warriors have suffered in the last two years.

He also knows how his players accepted the challenge of breaking South's losing habit, but there is one thing he will not find out this season — how his players accept victory.

Granite City North defeated South 27-14 Friday, and South ended the season with a 0-9 record.

North had little to gain or lose against South since it had already clinched the Gateway East Conference championship and a berth in the preliminary round of the Illinois High School Association playoffs, but South was going for everything.

"We honestly felt we could beat North," McKeehan said. "We never gave up this season, and every week, we thought we could beat every opponent."

"When you see 16-17 year old boys crying, you know they were trying their best. Whatever happened to them, they kept on plugging. It hard to come back when people are looking down on you, but every Monday they came charging and worked hard," McKeehan said.

"We're going to work hard in the off season. We're going to change this program around. We do a lot of things for them that shows we care about them, and we want them to care about winning," McKeehan said.

Despite South's efforts, North used the game as a tune-up for the playoffs. Most of the time, North beat South on both the offensive and defensive lines and controlled the tempo of the game.

game. On North's first series, the Steelers lost 22 yards rushing, mostly because of a 20-yard quarterback sack, but North gained those yards back on the next series and scored.

North, using its usual ball control game, was successful with off-tackle runs throughout the game. The Steelers used nine running plays to move 47 yards for its first touchdown, a three yard run by Daren DePew with 2:52 left in the first quarter. DePew kicked the PAT.

On North's second scoring drive, quarterback Carl Luehmann mixed things up slightly with a couple of passes to Brad Watson for 30 yards, but North went back to the running game for five more plays until the touchdown.

Once again, DePew scored on a three yard run and kicked the PAT to give North a 14-0 lead.

In the third quarter, South punter Rick Daily shanked a punt that set up DePew's third touchdown. The five-yard punt allowed North to start its drive at South's 26 yard line. Six plays later,

Luehmann passed to DePew for a nine touchdown play. DePew kicked the PAT to give him 21 points for the evening.

DePew, North's top scorer this season, scored 70 of his team's 160 points on five touchdowns, eight field goals, and 16 PATs in nine games.

Reserve quarterback Barry Watson scored North's other touchdown in the fourth quarter with a six yard run.

Wyrostek was concerned about the number of illegal procedure and illegal motion calls (five) called against the Steelers.

"I'm very concerned about that," Wyrostek said. "It's hard to get first and 10, but first and 15 is even harder to get."

He was also concerned about the lack of concentration of his blockers when the Steelers had to punt. In the second quarter, South's Dominic Griffin blocked a DePew punt that set up the first South touchdown.

and in the fourth quarter, Corey McConnell blocked a Jim Wyrostek punt that set up South's other touchdown.

"There was a lack of concentration on those punts," Tom Wyrostek said. "We knew they were pretty good about rushing punts, and we're going to have to work on that this week."

Griffin recovered the first block at the North 19 yard line. A pass from South quarterback John Linhart to Daily brought the ball to the one yard line to set up Daily's touchdown plunge.

South recovered the other block at North's 44 yard line. Linhart threw a long pass up the middle to Daily for a 44 yard touchdown play with 2:30 left in the game.

Other than the blocked punts, South generated very little offense. South had 109 total yards, 146 passing and 37 rushing.

"We did a good job for the

most part of containing the passing game," North assistant coach Bob Stegemeier said. "We also did a good job of gang tackling and they didn't gain very much more yardage because we did it."

"All of their receivers and backs can catch the ball, Dally, (Joe) Schnefke, (George) Diak, (Dan) Harris. They're all good and can burn you unless you stop them," Stegemeier said.

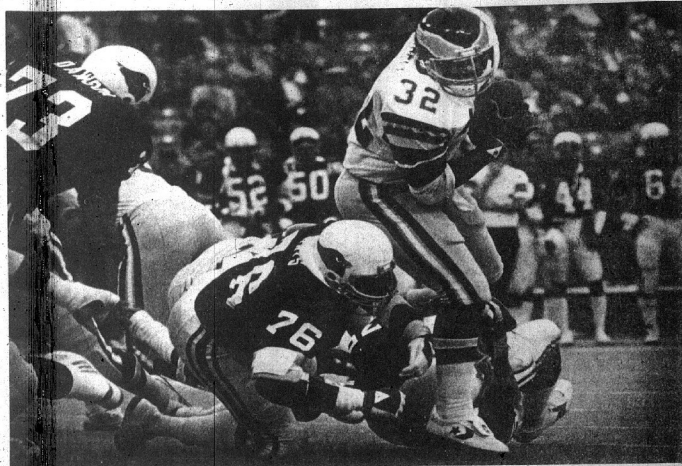

"We rushed them and made them throw the ball when they didn't want to," Wyrostek said.

Linhart completed 13 of 31 passes.

McKeehan said, "A lot of times, it was just 1-2-3-kick. The offensive effort was very good because North put so much pressure on us."

"We do have to be more balanced between our passing and rushing game. I think the weight program we're going to put them on this winter will help us run the ball better," McKeehan said.

"I played under Coach Wyrostek in high school, and the student's lost to the teacher twice. I wish Tom all the luck in the world in the playoffs because they're representing Granite City," McKeehan said.

CRUNCH! Granite City South's Joe Schnefke (44) gets out of the reach of Granite North's Scott Corey only to fall into the waiting

arms of North's Brad Watson (30) Friday night during South's 27-14 loss to the Steelers.

Park Awards Banquet

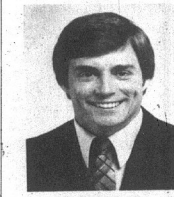

GRANITE CITY — The Granite City Park District's 22nd Annual Sports Award Banquet will be held on Tuesday, Nov. 17, at the Granite City South High School Cafeteria beginning at 6:15 p.m.

Paul Alexander, sportscaster at KMOX-TV, will be the main speaker. Alexander started with the St. Louis station on June 2, 1960 as a sports reporter. He came to KMOX from KOLD-TV in Tucson, Ariz., where he has been employed as that station's sports director since August, 1978.

Alexander graduated from Southwest Texas State University with a Bachelor of Arts degree in journalism, in 1976. He won numerous news reporting and broadcasting awards while at Southwest Texas State, including being honored by that school as journalist of the year in 1976. Other special guest speakers will be Granite City's own Dal Maxvill, Joe Hoerner and pitcher Bruce Sutter. Maxvill was signed by Cardinal scout Joe Monahan in 1960. In 1981 he was the Cardinals' minor league fielding instructor for all minor league teams. He has recently been named as a

SUTTER

ALEXANDER

coach for the Atlanta Braves for next season. In 1968 Maxvill won the Golden Glove award and has been in five World Series.

Sutter became a Cardinal on Dec. 8, 1980 in exchange for third baseman Ken Reitz and Ty Waller and outfielder first baseman Leon Durham. Sutter ranks as the top relief pitcher in the major leagues. Sutter was elected as a member of the National League All-Star Squad in each of his four full major league seasons. He graduated from Donegal High School, Mt. Joy, Pa. in 1972, where he excelled in baseball, basketball and football. Sutter played with the Chicago Cubs prior to

being traded to the Cardinals. Joe Hoerner, former Cardinal pitcher, will also be on hand.

The banquet honors teams that placed as winners in Park District Athletic leagues. Baseball and basketball trophies will be awarded that evening as all other trophies were presented during the past seasons.

Teams have been notified as to the number of tickets allotted to them, however extra tickets will go on sale in the Wilson Park Office on Nov. 12 at 9 a.m. Any softball team who won a trophy this past summer may purchase tickets after the above date.

how they appeared to him then. The first one, the missed one — "He (Modglin) was looking to the opposite corner so I went the other way," he said.

The seasoned one — "I thought he would do the same thing. I just got hung up," Ackerman said.

Hung up was right, as Modglin's blast

left Ackerman flatfooted and helped seal the Kahok victory.

Collinsville midfielder Jay Hook scored what eventually was the game winning goal less than seven minutes into the game.

Hook got a rebound off the West defense and blasted a shot into the lower right corner past Ackerman.

Freeburg's 30 yard line and were unable to score. "I don't think Freeburg really stopped us. We spattered," Vonderhaar said.

With 56 seconds left in the game, Madison had worked the ball down to Freeburg's eight yard line. It was fourth down and Vonderhaar decided to go for a field goal.

The players on the field misunderstood him and faked the field goal instead. Kenneth Briggs threw a pass into the end zone and it was intercepted by Freeburg.

Freeburg's defense, which set a school record this year for going 25 consecutive quarters without allowing a score, gave up only a stinging 83 yards of offense to Madison.

Advantages of port explained

Approximately 75 economic and industrial developers of the Southwestern area of Illinois as well as this area explored the advantages of services offered by Tri-City Regional Port District in a half-day seminar, last week.

The seminar, which was hosted by Carl A. Ranft, general manager of the port and the board of directors of Tri-City Regional Port, focused on informing the business leaders in attendance of the competitive edge that conducting business with the port can afford.

Waterway transportation, coupled with easy access to rail, trucking and air services, were stressed as not only economically attractive to most forms of industry, but as key to industrial development within the region. The added services offered by terminaling facilities and easy storage at the port were explained by guest speakers

knowledgeable about the port and the services of their individual businesses.

The day began with a bus tour of the port district harbor area. After completion of the tour, guests were greeted at the Granite City Army Installation Community Club for introductory remarks by Chairman of the Board Homer Huber. Huber's remarks were followed by overviews of the impact of water transportation on Southwestern Illinois economy by Mike Boer, development manager of the Southwestern Illinois Metropolitan and Regional Planning Commission. Dry bulk terminal operations were addressed by Jim Weakley of Bulk Service Corp. and public liquid terminal operations were discussed by a representative of Apex Oil Company.

The advantages of public general cargo dock operations were explained by Granite City Terminals

Corp. Executive Vice-President Howard Margraff, while rail services and their availability and advantages were explained by Mike Michels of Norfolk & Western Railroad. Before a break for dinner, Jeff Covinsky of SCNO Barge Line described the advantage of barge transportation over other modes.

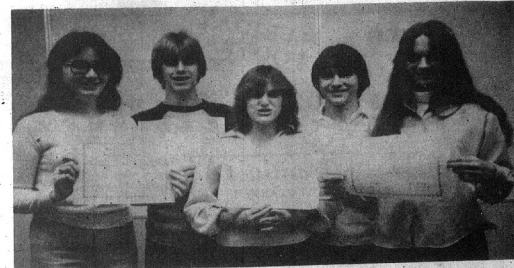

After dinner, Ranft tied the presentations together with his remarks on the advantages of having all of these modes of transportation available at one location, the Tri-City Regional Port District. He also explained other facilities within the port area.

Foreign Trade Zone Manager Oscar A. Nazetta gave a progress report on Tri-City Port's new Foreign Trade Zone 31 and its first months of full operation. Through concrete examples, Nazetta was able to explain some of the complexities of FTZ use and the tremendous advantages it's use affords business, large and small. The evening was concluded by a question and answer session.

The seminar marks one of the first attempts by a group, such as the port district and it's board, to advise local developers of the role of an intermodal transportation center in local industrial development.

SERVICE ACADEMY SELECTION BOARD
U.S. Senator Alan J. Dixon has named Mrs. Rita Hardy of Highland to his Service Academy Selection Board. She was appointed to a two-year term on the 13-member board, which screens applications from Illinois students interested in attending one of the nation's four service academies.

Selection for the academies is made on a non-political basis, on such factors as class standing, achievement test scores, work experience and non-academic accomplishments. Dixon said. Application for these academies may be made through his Springfield office: Post Office and Court House, Room 108, 6th and Monroe Streets, Springfield 62701.

BELLEVILLE SPEECH TOURNAMENT. Granite City High School North speech students holding certificates they earned during a Belleville speech tournament are, from the left, Sherry Hogan, Tim Pabst, Gayla Vaughn, Danny Bone and Anthea Hallett. The individual events coach at North this year is Richard King.

Push coal for export

Governor James R. Thompson has called on the coal industry and others involved in the development of Illinois coal to join with the state in "a new partnership to open up global markets for Illinois coal."

"What we're talking about is a cooperative plan between the Department of Commerce and Community Affairs and you entrepreneurs in the Illinois coal industry to explore and export coal to international markets," Thompson told the Governor's Coal Export Meeting, held at Springfield.

Those attending included representatives of coal industry, education, banking, and the state and federal governments.

"As the fifth largest coal producing state in the nation, Illinois is in a position to become a major supplier of coal."

"That is, provided we can ensure our customers of long-term deliveries in sufficient quantities and qualities, and at competitive prices. Well, that's what we're going to do," Thompson told the group.

He said the state is taking action to make Illinois coal more attractive; the steps include working to remove any federal disincentives to the use of Illinois coal.

"Operation has begun at a new plant, partially funded by the state, that reduces sulfur and nitrogen content during coal use," the governor noted.

"Illinois is converting several state facilities to coal, and a coal research board is being created with \$1 million in startup money for research by scientists in the area of coal development."

"The state also is participating in the Kinsgas coal

gasification plant at Wood River with a contribution of \$18 million to the project.

"Illinois has never been a major international coal exporter. But it well could become one of the biggest. 'Old Ben Coal Company's' contract for 800,000 metric tons of metallurgical coal to be shipped to Japan is the largest to date. 'I'm confident it is only the first of many. I will do everything in my power to assure that Illinois becomes a world leader in coal exports. But I cannot do it alone. You and I need to work together to open up new doors for our industry.'"

Den Five conducted the closing ceremony with a demonstration on fire prevention.

Later the scouts went on a hayride, then roasted wieners, marshmallows and were served hot chocolate.

The next week Den Two took a field trip to the Museum of Science, and Natural History, the St. Louis Medical Museum, the Dental Health Theater and McDonnell Planetarium.

Each member of the den is in the process of working on a Bear badge. Those attending the tour were Tommy Miner, Steven Smith, Eric Stone, Richard Staggs, Jeffrey Thomas and Jason Smith.

HEALTH WISE

Dr. E. L. STROTHER, D.C.
CHIROPRACTIC PHYSICIAN

SPINAL DEFECTS

Much of the pain and suffering caused by spinal defects could be avoided by periodic chiropractic checkups. Structural defects of the low back can normally be corrected by chiropractic techniques if discovered early enough. Trouble usually starts with misuse of the back... excessive lifting or other over-exertion.

There may be little or no actual pain at first. The first sign of difficulty is often a "catch" in the back or a weakness in the hips or legs. If neglected, spinal defects can develop to a state where disability results.

A chiropractic examination often discovers and eliminates spinal defects in the earliest stages. For an appointment, phone our office. There is no charge for consultation.

GC Jr. Service Club 50th anniversary

The 50th anniversary of the Granite City Junior Service Club was observed at an afternoon social event held at the Nameoki United Methodist Church, last week.

During the span of 50 years the organization has contributed many programs to assist school children, the elderly and continues to sponsor a handicapped person throughout the year.

One of the first endeavors was to work with all school principals and purchase shoes for needy children and the club now provides eye examinations for pupils and if needed purchases eye glasses for the youngsters.

As the social hour developed it was noted that after the club was organized the members served as the original Pink Ladies at St. Elizabeth Hospital.

Present at the reunion were five charter members: Mrs. Faith Koser and Mrs. Jean Ann Vrenick, club president, Jean Ann Vrenick and Betty Jo Koser, club sponsors, Faith Holsinger, chairman, and Gail Mofsky.
